A block of Everblooming Roses in one of our six Nurseries at Tyler, Texas. Photo June 1, 1934

COPYRIGHT 1934 BY DIXIE ROSE NURSERY

Six New Everblooming Climbing Roses

Originated by Dixie Rose Nursery and Registered with American Rose Society. We have tested these climbers for two years or more, and recommend them as healthy, free-branching, and free-blooming. Some of them, notably Climbing Talisman and Climbing President Hoover, have already proved excellent climbers in a number of states. They need winter protection in the North during midwinter, as do all Hybrid Tea or Everblooming Roses.

Five are illustrated on the covers-Climbing Rapture is illustrated below

CLIMBING MRS. THOM

Cl. HT. New. (Dixie Rose Nursery, 1933)

Rose-lovers throughout the Nation agree that the most satisfactory yellow everblooming garden Rose is Mrs. Erskine Pembroke Thom. This new climbing form carries the same profusion of lovely, medium-toned, unfading yellow flowers on an erect and thrifty plant. **75 cts. each**, **\$7.50 per doz.**

CLIMBING PINK PEARL

Cl. HT. New. (Dixie Rose Nursery, 1933)

Climbing sport of the well-known bush Rose, Pink Pearl. Strong, stocky, healthy grower. Large buds; double, fragrant blooms of deep rose-pink. Free bloomer. Similar to Columbia, its ancestor, in growth and bloom, but has more sturdy growth and better foliage. 75 cts. each, \$7.50 per doz.

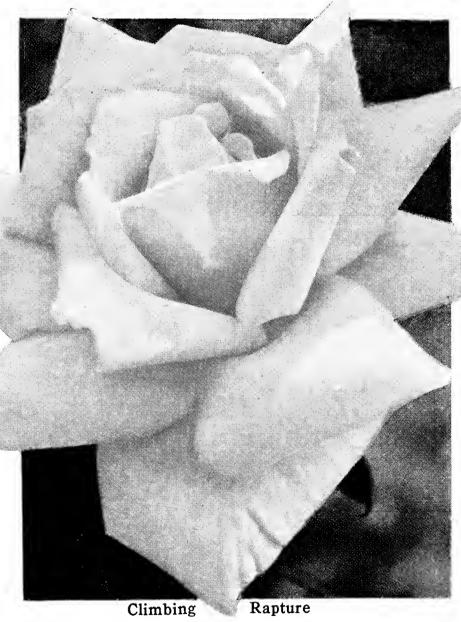

CLIMBING PRES. HOOVER Cl.HT. (Dixie Rose Nursery, 1931) Sport of President

Herbert Hoover, described on page 20. The plants we sell were originated by us and are adapted to the South. Strong plants and long, straight canes. 75 cts. each, \$7.50 per doz.

CLIMBING TALISMAN Cl.HT. (Dixie Rose Nursery, 1930)

Sport of Talisman, described on page 21. We originated and tested this climber and recommend it for the South. The most wonderful new climber. Vigorous plants with an abundance of foliage and blooms. 65 cts. each, \$6.50 per doz.

·++

CLIMBING RAPTURE

Cl.HT. New. (Dixie Rose Nursery, 1933)

Richest pink and gold of good old Ophelia's descendants is Rapture, fragrant and always in bloom. Our new sport has the same exquisite flowers but is a rampant

climber. 75 cts. each, \$7.50 per doz.

COUNTESS MARY

Cl.HT. (Dixie Rose Nursery, 1933)

Climbing sport of the popular Rose, Mary, Countess of Ilchester. Large, double, fragrant, full cupped blooms of deep pink, in clusters. Strong, healthy growth; long, rigid canes. Our choice of a pink climber. 75 cts. each, \$7.50 per doz.

1

All Roses sold through our retail Catalog are guaranteed, Number 1, two-year plants, true to name and first class in every respect. They are guaranteed to reach you in good condition.

TERMS: READ CAREFULLY. Terms are cash with order, as we have no credit department. Orders of \$2.00 or more are sent prepaid anywhere in the United States. On orders of less than \$2.00, please add 15 cts., regardless of number of plants, to cover extra packing and transportation costs. No order accepted for less than \$1.15, including packing and postage.

IMPORTANT NOTICE. We exercise care to keep all varieties true to name, and we are ready at all times to replace, on proper proof, all that may prove otherwise; but it is mutually agreed between the purchaser and ourselves that we shall not at any time be liable for any amount greater than the original price of stock. All sales made subject to stock being unsold when order is received, or loss by any and all unavoidable causes. Each year we offer the very best of the newest Roses. The descriptions are those given by the introducers, which are, of course, based upon the behavior of the varieties in the particular locality where they were observed. To save disappointment, please refer to the chart on the index, page 31, which shows how varieties behave in this section, which represents the general South.

Tyler, Texas

New Novelty and Patented Roses

TOKEN HT.

(Montgomery & Co., 1933) Plant Patent No. 95

Many Roses are described as orange, but none has the pure, unadulterated hue of the orange-peel except this fine new garden Rose whose color on opening is exactly like that of a fully ripe California navel orange. As it ages, a shade of pink creeps into the petals, giving it the tints of a newly opened Los Angeles. The plant is upright, strong, and a dependable bloomer. **\$1.50 each, \$15.00** per doz.

"Please send me your Rose Catalog this fall. The Roses I bought from you this spring are beautiful. Every one lived, and they have grown wonderfully."—Miss Ina Perkins, San Antonio, Texas, August 7, 1934.

> Mrs. Pierre S. du Pont

MRS. PIERRE S. DU PONT

HT. (C. Mallerin, 1929) Here is a splendid golden yellow Rose which is the finest of its color for garden use. The well-shaped, golden yellow flowers resemble those of the lovely old Mme. Butterfly in form. Plant is compact and leafy, growing about $2\frac{1}{2}$ feet high, and blooms with unceasing abundance throughout entire season. We regard it very highly. 60 cts. each, \$6.00 per doz.

AUTUMN HT. (L. B. Coddington, 1931)

Gorgeous dark crimson and yellow. A descendant of Sensation and Souv. de Claudius Pernet. Buds have burntorange tinge and open to very double flowers of deep pink and orange-yellow. In warm weather, flowers have a striped appearance which disappears in cool weather, leaving deep crimson and gold. Moderately vigorous. 60 cts. each, \$6.00 per doz.

·++

"You may remember that last fall I sent for some Roses from you and told you at the same time that I did not believe that southern-grown Roses were able to grow and stand the New England winters. My apologies. Your Roses were put into the ground the day before Christmas, and that is very late here, and immediately there started the most severe winter there has been for over seventy years, with the thermometer going 20 and 30 degrees below zero. I thought that I would lose all my established Roses and never gave the southern Roses a chance, but to my surprise they all lived and are doing as well as the others. Again my apologies and congratulations. Be sure to send me your Catalog this year." – Edward W. Burt, M.D., New Bedford, Mass., June 2, 1934.

New Novelty and Patented Roses

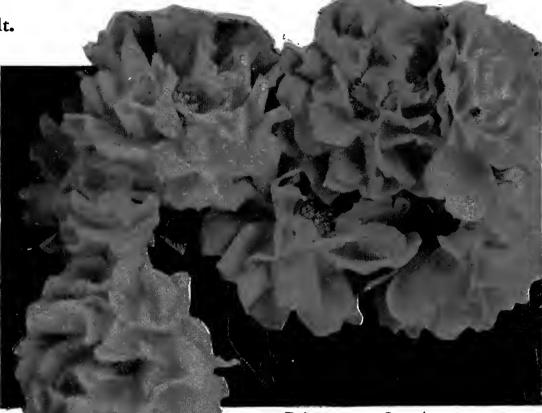

Prinses van Oranje Mult.

A NEW CLIMBING POLYANTHA (G. de Ruiter, 1933) Plant Patent No. 106

An everblooming rambler which sported from Gloria Mundi, the brightest and most unfading of the orange-scarlet sports of the pompon Orleans. This is a stunning Rose of a soft, bright color which will make a sensation wherever it is grown. It is practically always in flower, producing big sprays of dazzling orange-scarlet flowers all the season. \$2.00 each, \$20.00 per doz.

All Roses sold to our Retail Trade are mature, 2-year plants which have bloomed throughout the year.

Golden Climber

Prinses van Oranje

GOLDEN CLIMBER HW.

Mrs. Arthur Curtiss James

Plant Patent No. 28

Originated by Mr. and Mrs. Walter D. Brownell, Rhode Island, who have been improving the size, color, hardiness, and blooming qualities of climbing Roses, this magnificent new

golden yellow climber has met sensational approval. Virtually a yellow Mary Wallace, though foliage is glossier and healthier, and the long-stemmed yellow flowers are borne singly. Blooms immense, with glorious, longpointed buds, won the acclaim of members of American Rose Society assembled in Boston. Finest hardy yellow climber introduced to date. \$2.00 each, \$20.00 per doz.

NEW DAWN HW. Everblooming Dr. W. Van Fleet (Somerset Rose Nursery, 1930) Plant Patent No. 1

"My shipment of Roses arrived in excellent condition and was planted at once. I never saw finer plants. I hope to have some very fine Roses. If I don't it will be the fault of the planting and not the plants, as I never saw finer plants."—Louisville, Kentucky, January 7, 1934.

·++*

Most popular hardy climber. The lovely flesh-pink Dr. W. Van Fleet has produced a sport which is a true everblooming climber, hardy enough to withstand severe frost. Flowers have same exquisite shellpink tint, and while plants are not so vigorous as original, they are strong enough to make splendid, glossy-leaved pillars. \$1.50 each, \$15.00 per doz.

╪╬╋┿╸

New Novelty and Patented Roses

Aroma

AROMA HT.

(B. R. Cant & Sons, 1931)

The name indicates the outstanding characteristic of this delightful Rose which reached us from England two years ago. The sparkling crimson flowers are deliciously sweet, with a deep and satisfying perfume reminiscent of the Moss Rose and the Hundred-Leaf of yesteryear. The clear color is held well in hot sun and shade, and the vigorous plants produce a steady succession of clustered buds throughout the season. 60 cts. each, \$6.00 per doz.

"I have found your plants excellent, really the best I have ever had."— Lynchburg, Va., January 8, 1934.

MME. NICOLAS AUSSEL HT. (Pernet-Ducher, 1930)

This stunning new Rose won a Gold Medal at the Exposition of Lyons, France, in 1930. It is a remarkable blend of deep glowing orange and salmon-pink, fragrant, beautifully formed, and lasting when cut. Bud is very large, shapely, heavily tinged with salmon and carmine. The open flower is glowing salmon suffused with gold and orange. Plant is vigorous and produces a fine crop of flowers several times each season. One of best new Roses. **60 cts. each, \$6.00 per doz.**

Why We Offer You America's Finest Field-Grown Roses

৽+♦₽

·++

The prices in this Catalog demonstrate more clearly

than words that it is possible to have a beautiful Rosegarden at small cost. Cheaper Roses may be bought elsewhere, but plants of Dixie Quality cannot be produced and shipped to you at prices lower than we quote here. All our Roses are field-grown and fieldbudded on Rosa Multiflora Japonica understock. They have proved to be hardy and free-blooming. We are budding nearly a million Rose plants annually, and our prices are the lowest for which our large and experienced organization can produce finest quality Roses.

The plants which we send out are all two-year-old, Number 1, budded bushes. They are guaranteed to reach you in good condition.

Mme. Nicolas Aussel

Tyler, Texas

New Novelty and Patented Roses

MARY HART HT.

Red Talisman

(G. B. Hart, 1932)

Plant Patent No. 8

A stunning, glorious red sport of the well-known Talisman which it resembles in almost all respects except color, having the same erect habit, with foliage of somewhat darker green. It is an unceasing bloomer, producing warm brownish crimson flowers both early and late, with the unusual merit for a red Rose that the color does not turn bluish as blooms fade. \$1.00 each, \$10.00 per doz.

"Your shipment of Roses was received in splendid condition. Do not believe anyone ever shipped any finer stock. I certainly congratulate you."—Macon, Georgia, December 9, 1933.

> Countess Vandal

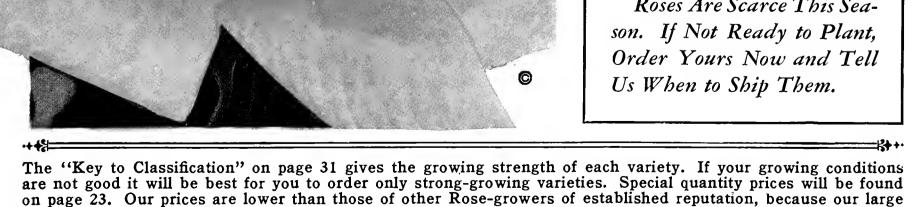

Mary Hart

COUNTESS VANDAL HT. (M. Leenders & Co., 1932)

Plant Patent No. 38

At Rose shows in Europe and America, during the seasons of 1931– 33, this Rose took many first prizes, medals, and awards of commendation, making a veritable sensation in the Rose-world. Its long, pointed buds are coppery salmon and golden yellow, opening to large, bronzy pink flowers frequently over 5 inches wide. Long, deep petals reflex in a graceful manner, giving it exquisite delicacy of form unapproached by Roses of similar size. Bronzy foliage. Upright, vigorous; prolific flowering habit. **\$1.00 each, \$10.00 per doz.**

Donce Ano Connes This Con

production, our methods and climatic conditions reduce our production costs. Remember, all prices shown in this Catalog are PREPAID TO YOU, except as noted under "TERMS" on page 3.

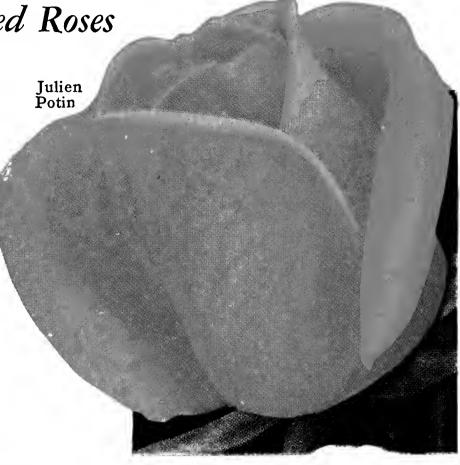

New Novelty and Patented Roses

JULIEN POTIN HT.

(Pernet-Ducher, 1927)

A fine clear golden yellow Rose of vigorous, erect habit, with very shapely, medium to large blooms of long-pointed form, which hold their color well. Excellent exhibition Rose. Free flowering and fragrant. 60 cts. each, \$6.00 per doz.

SOUVENIR HT.

Golden Talisman. (A. N. Pierson, 1932) Plant Patent No. 25

Pure golden yellow sport of the remarkable Talisman, which it equals in vigor and resembles in upright growth, healthy light green foliage, and free blooming. Flowers slightly larger than Talisman and a little more loosely built, correcting a minor fault of Talisman. Blooms are fadeless yellow and last a long time, on the bush or when cut. A free-flowering, non-fading yellow Rose. Its Talisman parentage assures vigor and excellent blooming. \$1.00 each, \$10.00 per doz.

Souvenir

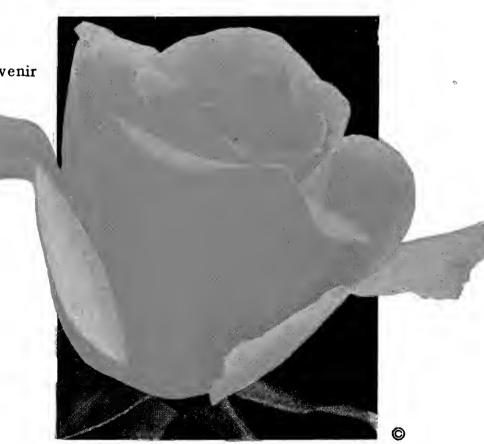

MARGARET McGREDY

HT. (S. McGredy & Son, 1927)

***=

·+**+**2=

It is difficult to describe the extraordinary vividness of this scarlet-orange or brick-red flower. The color stands out in the garden like a torch. Its symmetrical blooms are cup-shaped and double, with an excellent circular arrangement of petals, and they are produced with astonishing freedom throughout the season. This wonderful Rose never fails to draw favorable comment from visitors who see it growing in our nursery. Its sturdy growth, delightful perfume, and remarkable blend of colors is everything that could be desired. We recommend it for mass planting. 60 cts. each, \$6.00 per doz.

¦}+

Classification and Strength of Growth of All Roses Shown on Page 31

GOLDEN DAWN HT.

(Patrick Grant, 1929)

One of the finest garden Roses grown in America. Flowers are fully double, deep yellow in bud, occasionally tinged with bronze, opening to fine, richly fragrant, pale lemon-yellow flowers of great size and lasting quality. Plants are dwarf and spreading, with dark, glossy green foliage which seems impervious to black-spot. We believe it has a great future. 60 cts. each, \$6.00 per doz.

Golden Dawn

BLAZE (Everblooming Paul's Scarlet)

H.Cl. (Jackson & Perkins Co., 1932) Plant Patent No.10 This marvelous, hardy, everblooming scarlet-red Rose combines the bloom and habit of Paul's Scarlet with the everblooming character of Teplitz. It is generally covered with flowers from earliest season to late autumn. Can be pruned low to make massing or bedding plants, trained as a shrub, or tied up as a climber or pillar. Blaze was awarded the Special Certificate reserved for Climbing Roses at the Bagatelle Contest of New Roses in Paris, 1933. \$1.50 each, \$15.00 per doz.

Joanna Hill

Blaze

JOANNA HILL нт. (*J. н. Hill Co., 1928*)

Bright yellow and cream-colored flowers, like an improved Sunburst. Bud very large and long-pointed,

Novelty and Patented Roses NIGRETTE HT. "The Black Rose of Sangerhausen"

(*M. Krause, 1934*) Plant Patent No. 87

In Germany, last year, this Rose aroused so much excitement that the newspapers of America carried accounts of the famous "Black Rose" discovered there. Actually it isn't black, but it's pretty near it; and it is a jolly little toy Rose worth having for the fun you can get out of it. It is a lovely shade of dark velvety maroon with a coal-black sheen like that of some very dark pansies. **\$2.00 each, \$20.00 per doz.**

AMELIA EARHART HT. President Charles Hain (L. Reymond, 1929)

Plant Patent No. 63

A huge yellow Rose full of numerous petals, developing slowly from an enormous golden yellow bud. It looks like a greatly magnified and improved Souvenir de Claudius Pernet, without that old variety's weaknesses and faults. The plant is very

vigorous, producing its numerous stiff-stemmed

flowers throughout the season. This Rose has attracted a great deal of favorable com-

ment abroad, where it is used both for garden and exhibition purposes. At its best, it is a handsome and sensational flower, probably the largest and doublest of the modern race of Pernetiana type of Hybrid Teas. \$1.50 each, \$15.00 per doz.

Amelia Earhart

GOV. ALFRED E. SMITH HT.

(Veuve Denoyel, 1933)

C

DOUBLOONS H. Set. (M. H. Horvath, 1934)

Plant Patent No. 62

A very handsome, globular Rose reminiscent of the older Miss Lolita Armour. The brownish buds open to very double flowers of buff, terracotta, and golden salmon. \$1.50 each, \$15.00 per doz.

Plant Patent applied for

A stunning new hybrid of the wild Prairie Rose, Rosa setigera, with fine deep golden yellow flowers of excellent shape, both in bud and open bloom. Plant is a ruggedly hardy climber. \$1.50 each, \$15.00 per doz.

"Received my shipment of Roses in fine shape; have them all set and they are a fine bunch of bushes. I am sure if people wanting to plant Roses could see what a fine lot of bushes I received, it would make you some business in this city."—Oklahoma City, Okla., November 13, 1933.

Lord Charlemont

New Novelty and Patented Roses

LORD CHARLEMONT HT.

(S. McGredy & Son, 1922)

This magnificent Rose has steadily won popularity year after year because of its brilliant color and delicious fragrance. Blooms are globular, full-petaled, symmetrical, held upright on strong, wiry stems. Their vivid scarlet-crimson color stands out above all other reds. A good garden Rose, growing with vigor, not so thorny as most. Foliage is deep green, leathery, highly resistant to black-spot. Unsurpassed as a cut-flower. Blooms last for days without fading. 60 cts. each, \$6.00 per doz.

Max Krause

=**K+**+

MAX KRAUSE HT. (Max Krause, 1930)

Fat, globular buds of deep, buttery orange which open to huge, double, golden yellow flowers with petals paling lighter at the edges and deepening into soft bronzy or coppery tones in the center of the bloom. The plant does well in the garden and blooms freely, producing a fair number of its large, opulent blooms throughout the season. It is a deeper yellow than Louise Krause. **\$1.50 each, \$15.00 per doz.**

EDITH KRAUSE HT. (Max Krause, 1930)

A Rose with elegantly shaped buds which open to large, beautifully formed flowers of dazzling white, faintly tinted with golden fawn in the depths of its petals. The plant is notably vigorous, producing its handsome blooms singly at the tips of long, stiff stems clothed with ample, beautiful foliage. We consider it a noble achievement among white Roses, and one of the finest available in the Hybrid Tea class. \$1 each, \$10.00 per doz.

·++{}=

LOUISE KRAUSE HT. (Max Krause, 1930)

This handsome Rose is almost a twin sister to Max Krause, which it resembles in its generous proportions and tone of color. In general, the flower is a light shade of orange throughout, paling to ecru or cream at the edges of the petals, lighter by several shades than Max Krause and achieving at times a distinct similarity to the lovely old Rose, W. E. Wallace. Vigorous and free-flowering plants. \$1.25 each, \$12.50 per doz.

Special 60-cent Novelty-Rose Offer No. 1 Any fifteen 60-cent Roses Listed in Dixie Rose Catalog No. 27, Ordered for One Shipment Will Be Prepaid Anywhere in the U. S. A. for ONLY \$6.95.

C

New Novelty and Patented Roses

BETTER TIMES HT.

(J. H. Hill Co., 1934)

Plant Patent No. 23

Brilliant crimson-cerise sport of the florists' Rose, Briarcliff. The well-shaped flowers are borne erect on stiff stems freely throughout the season. \$1.50 each, \$15.00 per doz.

Independence Day

Better Times

O

INDEPENDENCE DAY HT.

(Bees, Ltd., 1919)

A showy bedding variety with pointed, brilliant yellow buds strongly tinged with orange and copper, opening to broad, semi-double, orange-yellow flowers which are produced in great profusion throughout the entire season. A fine bedder. 60 cts. each, \$6.00 per doz.

> Director Rubio

DIRECTOR RUBIO HT.

(P. Dot, 1929) In our climate, this sterling variety is one of the handsomest of Roses. Its huge, vivid pink buds are borne on relatively short, stiff, and erect stems and open out like peonies into broad, somewhat flat flowers of shining crimson-pink with a broad collar of huge petals surrounding a group of incurved smaller ones in the center. The giant size and brilliant color of this stunning Rose attract admiring attention from everyone, 60 cts. each, \$6.00 per doz.

New Novelty and Patented Roses

EDITH NELLIE PERKINS HT.

(A. Dickson & Sons, 1928)

The open bloom is a delightfully shaped flower of two contrasting tints, the outside of petals gleaming with bright orange-cerise and the inside overspread with pale salmon-pink, flushed with orange-gold. Buds are firm and hand-some, richly dyed with copper tones before they open. Plant stands up vigorously and is well clothed with glossy, disease-resistant foliage. More than ordinarily vigorous, it makes a splendid bush for formal bedding use. Provides abundance of exquisite blooms for cut-flowers. 60 cts. each, \$6.00 per doz.

MEVROUW G. A. VAN ROSSEM HT. (G. A. van Rossem, 1926)

Stunning bright yellow and orange Rose of erect habit, with rather small foliage and thick, thorny canes. The medium-sized, gorgeous, globular blooms are golden yellow, flamed with orange and scarlet; exquisite clean-cut veins of deeper tones, deepening at times to bronze and brown. A most unusual and striking bloom. Best grower of its color class for southern gardens but fades in hot weather. 60 cts. each, \$6.00 per doz.

EDITOR McFARLAND HT.

(C. H. Mallerin, 1931)

A deep, sparkling pink Rose of the Lady Ashtown type, borne with the utmost liberality by vigorous, upright bushes which hold the flowers stiffly erect and make them particularly suitable for cutting. The clear, unfading color is especially pure, and the general vigor and reliability of the plants have made friends for it in all parts of the country, both as a bedding Rose and as a cut-flower. 60 cts. each, \$6.00 per doz.

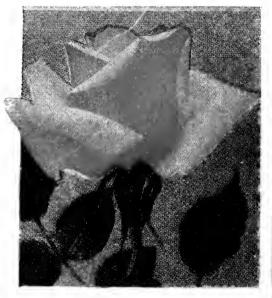

Editor McFarland

We Grow Principally Hybrid Teas or Everblooming Roses

Hybrid Tea Roses (indicated by HT.) do not bloom all the time, but if kept healthy and growing, they bloom successively throughout the growing season. Our plants are adapted to all sections, with winter protection where necessary.

Special or Newer Everblooming Bush Roses

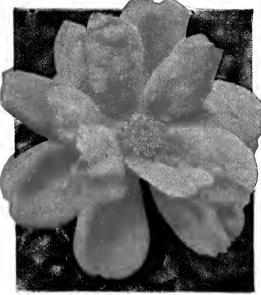

All Roses listed below are 60 cts. each, \$6.00 per doz., unless priced otherwise

BETTY UPRICHARD (A. Dickson & Sons, 1922) HT. Brilliant copperred buds, opening to brilliant or ange-earmine flowers, showing light salmon reflexes.

BETTY SUTOR

(S. McGredy & Son, 1929) HT. A lovely soft pink flower resembling the popular Mme. Abel Chatenay of years ago. We consider it an outstanding new variety for its exquisite form and color.

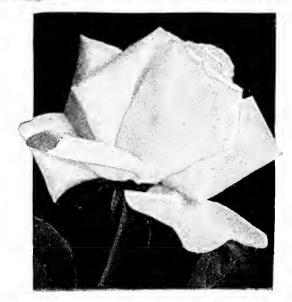

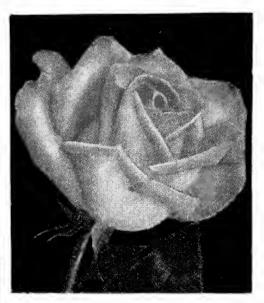

AMI QUINARD Illustrated below. (C. H. Mallerin, 1927)

HT. One of the darkest and yet most brilliant, crimson Roses ever introduced. The large, semi-double flowers have a lovely velvety searlet sheen and are produced in steady succession throughout the summer on vigorous plants of more than average growth.

Ami

BRIARCLIFF

(Briarcliff Greenhouses, 1926)

HT. A brilliantly colored sport of the famous Columbia, with huge, rich pink flowers on long, strong stems.

CHATEAU DE CLOS VOUGEOT (Pernet-Ducher, 1908)

HT. Most beautiful of all the deep black-crimson Roses, fragrant and handsome. A favorite of all who treasure Roses for their sheer beauty.

CUBA (Pernet-Ducher, 1926)

HT. Vivid, orange-searlet buds, opening to immense, cup-like flowers of iridescent copper-red and brilliant orange-vermilion. Free-flowering and exceptionally vigorous.

·++*

ANGELUS (F. H. Lemon & Co., 1921)

HT. A strong, upright-growing bush with huge, pure white flowers somewhat similar to those of Kaiserin Auguste Viktoria, but doubler and richly fragrant. ETOILE DE HOLLANDE (H. A. Verschuren & Sons, 1919)

HT. Brilliant red blooms of magnificent size, perfect in half-open state; attractive centers when full blown; enormous petals; fragrant. Healthy. Free-flowering.

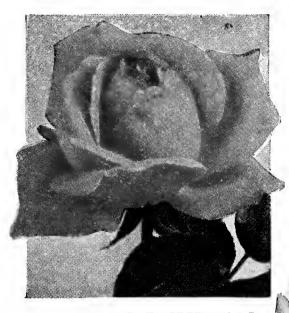

=6+++

All Roses listed below are 60 cts. each, \$6.00 per doz., unless priced otherwise

DAINTY BESS

(W. E. B. Archer & Daughter, 1928)

HT. The charming single flowers in large clusters are soft mauve-pink, with petals of kidlike texture, emphasized by a sparkling garnet-crimson center. A tall-growing plant.

CHARLES P. KILHAM (G. Beckwith & Son, 1926)

HT. Huge, double flowers of brilliant oriental red suffused with gay orange and scarlet. A greatly improved Mme. Edouard Herriot both in substance of flower and in vigor.

MRS. LOVELL SWISHER (Howard & Smith, 1926) HT. Large, pointed buds and

DUCHESS OF WELLINGTON

(A. Dickson & Sons, 1909)

HT. Handsome, long, saffronyellow buds opening to very large, semi-double, pale creamy yellow flowers. Strong plants.

DAME EDITH HELEN

Illustrated below. (A. Dickson & Sons, 1926) HT. A superb Rose of the exhibition type, producing huge, shapely buds and very large, high-centered blooms of clear dazzling pink, composed of many concentric petals full to the center and sweetly fragrant. Stems are erect and very stiff. Probably the handsomest and showiest fully double pink Rose for exhibition.

IRISH CHARM (S. McGredy & Son, 1927) HT. Medium-sized, double flowers of bright golden apricot passing to blushpink. Fragrant and very lovely.

EDEL

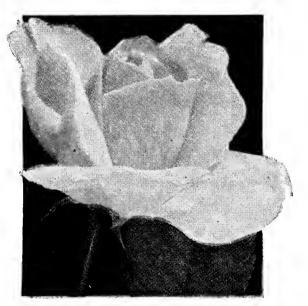

(S. McGredy & Son, 1919)

HT. Huge, very double, snowwhite flowers with many exquisitely curled petals. The tall plants are vigorous and exceptionally free-flowering, especially late in the season.

MRS. HENRY BOWLES (Chaplin Bros., 1921)

HT. Ovoid buds and globular flowers of clear, piercing pink, with lighter shades. A fine firm center, well held, and fairly fragrant. Vigorous, free-blooming plants with good foliage.

RAPTURE (Traendly & Schenck, 1926) HT. Much like Mme. Butterfly in growth and shape of bloom, but the color is deeper and more brilliant. Considered. the best of the Ophelia race.

huge, gorgeous flowers of salmonpink and gold, passing to flesh-pink at edges. Strong grower and free bloomer. One of the largest Roses.

IRISH ELEGANCE (A. Dickson & Sons, 1905)

HT. Large, single flowers of orange-scarlet, tinged with bronze and apricot. A very decorative single-clustered flower.

·++8=

CALEDONIA (Dobbie & Co., 1928) HT. Extremely long, delicate, pure white buds, opening to double, high-centered blooms of creamy texture. A superb, snowy white Rose when fully developed.

IMPERIAL POTENTATE (Clarke Bros., 1923)

HT. Firm-petaled; dark, shining rose-pink, shaded lighter on reverse of petals; fragrant. Erect, branching plant. Healthy, hardy.

=6++

All Roses listed below are 60 cts. each, \$6.00 per doz., unless priced otherwise

LULU

(W. Easlea, 1919)

HT. Remarkable for its long, slender, deep orange-red buds, and bright, single flowers.

JOHN RUSSELL (Dobbie & Co., 1924)

HT. Large, ovoid buds and immense, crimson flowers of oldtime globular type, with the famous high exhibition centers. Very vigorous. 35 petals. A red Rose you will enjoy.

MAMAN COCHET

(S. Cochet, 1893)

T. Huge, long-pointed flowers, double to the center and deliciously fragrant, pale pink throughout. One of the best old Tea Roses, especially adapted to southern gardens.

MME. EDOUARD HERRIOT (Pernet-Ducher, 1913)

HT. One of the most famous Roses in the world. Gorgeous coralred and orange tinged with yellow and gold. Free-flowering and exceedingly brilliant in the garden.

MISS LOLITA ARMOUR (Howard & Smith, 1919)

LADY MARGARET STEWART (A. Dickson & Sons, 1926)

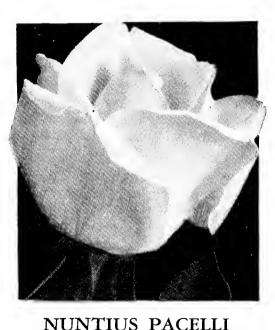

HT. Large exhibition bloom with enormous petals, perfect form, high-pointed center, golden yellow, shaded and streaked with orange and red. Handsome, healthy foliage.

MME. JULES BOUCHE

Illustrated below. (J. Croibier Sons, 1911) HT. Superb white flower, shaded light blush or primrose at eenter; double, full, lasting, fragrant. Plant extra-strong, healthy, very free-blooming. Rated as the finest white or light-colored decorative Rose for garden use.

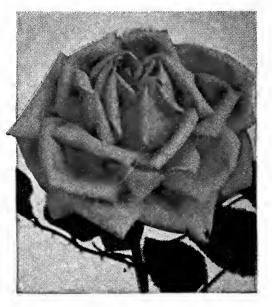

Mme. Jules Bouche

McGREDY'S SCARLET (S. McGredy & Son, 1930)

HT. Huge, loosely formed flower of bright erimson shaded with dazzling orange-scarlet. Extremely fine.

PATIENCE (S. McGredy & Son, 1927)

HT. Bright carminered buds with deep orange shading at the base of the petals, the flowers opening in mingled shades of carmine and orange.

MISS ROWENA THOM (Howard & Smith, 1928)

HT. Enormous buds and blooms of fiery rose and mauve, shaded with old-gold at center, borne on long, strong stems. Profuse, continuous bloomer. Very prolific.

MRS. A. R. BARRACLOUGH (S. McGredy & Son, 1926)

HT. Huge, pointed buds and extremely double, high-centered flowers of glowing light salmon-pink.

MRS. E. P. THOM

(Howard & Smith, 1926)

HT. Probably the best clear medium yellow garden Rose for the North. Slender, shapely, golden yellow buds; large, symmetrical blooms of light canary-yellow. Plants are erect, vigorous, blooming freely.

HT. Extremely double, deliciously seented, coppery orange and pink flower of striking appearance. Bush is strong.

See Classifications and Strength of Growth on page 31.

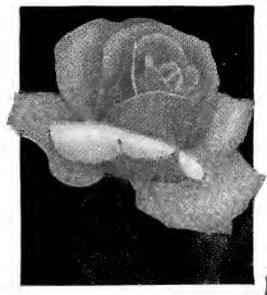

·++

Illustrated above. (Leenders Bros., 1927)

HT. A beautiful, pure white Rose, more vigorous and larger than the old Kaiserin Auguste Viktoria. Fragrant, and unstained by other tints. See Instructions for the Planting and Care of Roses on page 28.

:K++•

All Roses listed below are 60 cts. each, \$6.00 per doz., unless priced otherwise

IMPRESS

(A. Dickson & Sons, 1929)

HT. Very large, double flowers of bcautifully incurved shape, with petals of bright salmon-pink, suffused with luminous orange.

MRS. MacKELLAR (A. Dickson & Sons, 1915)

HT. Large, exquisitely formed blooms of deep citronyellow, paling to canary and cream tints. An extremely beautiful flower. Rated as one of the most beautiful Roses in existence.

E. G. HILL

Illustrated below. (E. G. Hill Co., 1929)

HT. Very bcautiful dark red buds which open to immense, long-lasting, dazzling scarlet flowers, with the rich fragrance of the old-time Roses. Blooms are full to the center, compact, have many petals, last a long time on the bush or cut. For a Rose so full, the plant is unusually prolific and makes better than average garden growth. The leader of all rcds in our nurscry in 1933–34 for consistent color and fine flowers.

REV. F. PAGE-ROBERTS (B. R. Cant & Son, 1921)

> HT. Copperred buds opening to large, double, golden yellow blooms, stained outside with red; fragrant. 50 petals. Healthy foliage.

NORMAN LAMBERT

(S. McGredy & Son, 1926)

HT. Large, handsome, copper-orange buds and very large, semi-double flowers, rich golden yellow at first, splashed and edged with coppery crimson.

MRS. PERCY V. PENNYBACKER (Jos. Vestal & Sons, 1929)

HT. A charming Rose of Mme. Butterfly type, with double flowers of soft peach-pink and silver. The fragrance is sweet. Plant strong and free-flowering.

PINK PEARL

(M. Leenders & Co., 1924)

HT. This is the best of all Roses of the Columbia type. Its erect stems bear its solid, deep pink flowers rigidly erect. Very

double and deliciously fragrant.

OLYMPIAD

(Jean Gaujard, 1931)

·++

·++}=

HT. (Mme. Raymond Gaujard.) This handsome French Rose won the 1930 Gold Mcdal at Bagatelle. A very long bud; fully double, long-lasting flower of deep blood-red, shaded with copper and yellow. Plants vigorous, free-flowering.

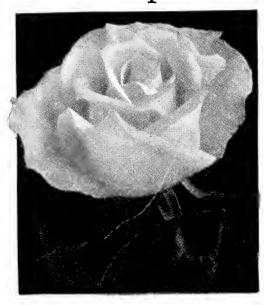

ROSLYN (Edwin Towill, 1929)

=B++·

=13++-

HT. Charming, pointed buds of golden yellow and frilled, open flowers of buttercup hue strengthened with orange. A remarkably free-blooming garden plant of moderate vigor. An interesting new variety.

SPECIAL OFFER No. 2. Any ten 60-ct. Roses and Any ten 45-ct. Roses (a Total of 20 2-Year, No. 1 Roses) PREPAID in U. S. A. for only \$8.50

PREMIER SUPREME (Zieger & Sons, 1927)

HT. Finest type of the florists,' or cut-flower Rose. Tall, vigorous growth, producing handsome, deep rose-pink flowers at the tip of each shoot. Unexcelled for cutting because of its beautiful form and fragrance. 60 cts. each, \$6.00 per doz.

STANDARD OFFER No.3

·++

Any 25 Standard or 45-ct. Roses Ordered for One Shipment — All Two-Year, No. 1 Plants — PREPAID Anywhere in U. S. A., ONLY \$8.75.

SOUVENIR DE MME. C. CHAMBARD

Illustrated below. (C. Chambard, 1931) HT. Sturdy plants of Hybrid Pcrpetual habit, producing immense, upstanding flowers of gorgeous rosy rcd and salmon, with a deep orange-yellow glow underlying the whole flower. Blooms all season. \$1.00 each, \$10.00 per doz.

SYRACUSE

(C. Mallerin, 1930) HT. Bright crimson flowers full of wavy petals, outer petals recurving. Open bloom is very double. Borne singly on good stems by tall, vigorous, bushy plants of healthy foliage. 60 cts. each, \$6.00 per doz.

(V. Berger, 1928)

HT. Extremely large, globular buds which open

8**+**+•

slowly into blooms of stately size and magnificent petalage; amaranth-pink; fragrant. Sturdy and free-flowering. 60 cts. each, \$6.00 per doz.

Standard or Well-Known Hybrid Perpetuals

35 cts. each, \$3.50 per doz. These Roses bloom in late spring and in the autumn

FRAU KARL DRUSCHKI (P. Lambert, 1901)

HP. White American Beauty. Pinkish buds and magnificent, snow-white blooms with deep, firm petals. A flower of unsurpassed shape. Best white Rose of any class. Very strong; 4 to 6 feet high. Prune often. Foliage normal. Blooms freely and continuously throughout the summer and fall.

GENERAL JACQUEMINOT

MME. ALBERT BARBIER

(Barbier & Co., 1925)

HP. Full, cupped flowers of soft fawn-yellow, paling to white; pinkish shades in the center. Growth moderate; blooms steadily through the season. Remarkable combination of yellow shades.

PAUL NEYRON

(A. Levet, 1869)

(Roussel, 1852)

HP. Scarlet-crimson buds and clear red blooms of moderate size and excellent shape; very fragrant. Plant strong; 3 to 6 feet high. Normal foliage. Often blooms a second time. An old favorite. HP. Dark lilac-rose blooms of immense size, fair form, very double; remarkably fragrant. Vigorous. Strong, smooth canes. Tough, leathery foliage. It is more profuse in bloom than other roses of its color, and one of the largest of all Roses.

•• + +{}

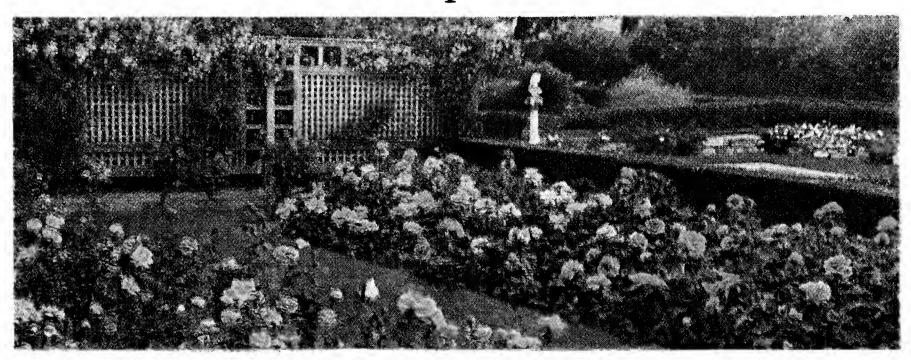

"I received my Rose bushes at noon yesterday and must confess to being surprised at the wonderful root-systems and tops on bushes that are only two years old. I would recommend your plants to anyone."—Reading, Pa., November 7, 1933.

Special Group Prices to Garden Clubs

Because it is easier to handle large orders than small ones, we can afford to make special reductions in prices to Garden Clubs whose members group their orders, or to any number of Rose-lovers who group together for the purpose of securing favorable prices on Roses. If one hundred or more Roses are ordered to be shipped at one time, you are entitled to the 100-lot prices quoted at bottom of page 23.

Dixie Rose Nursery is a member of the American Rose Society. Because it endorses the work of that organization, it will give one annual membership in the American Rose Society to every Rose group or individual which orders 100 or more Dixie Rose bushes this season, to be shipped at one time. Membership in the American Rose Society is an honor and a privilege. Among other advantages, each member receives a practical book on Rose-growing called "What Every Rose-Grower Should Know."

A Rose-Garden Completes the Ideal Home

Every home should have at least fifty to a hundred Roses in the garden. Roses are fast becoming the most popular flower in America, as they have long been the best loved. The popularity of Roses is growing by leaps and bounds, and Garden Clubs and Rose Societies devoted to the culture of this lovely flower are being formed everywhere. Many of these Garden Clubs and Rose Societies have planted Municipal Rose-Gardens for the benefit of every citizen in the community. The American Rose Society will help in all undertakings of this kind by giving advice and suggestions. Plans and reports of municipal Rose-garden activities are available. We shall be glad to give further information on request.

Early Winter Planting in the South

Late fall is the best planting-time in the South because growth ceases for only a few weeks in midwinter. Bushes planted before winter comes make good root-growth and are ready to begin growing vigorously when spring opens. In the southern states, Roses may be planted at any time in winter when the ground is not frozen, but particularly from November 15 to February 15. If possible, prepare the ground several weeks in advance before planting, to allow plenty of time to settle before the Roses are planted. It is also well to protect newly planted Roses by hilling the earth up around them the first winter.

"I purchased from you in March, 1932, one of your Climbing Talisman and I believe that I have the finest plant of that variety in this state. Last spring we had from 30 to 50 blooms at one time—all large fine buds with stems from 10 to 18 inches in length."—Mrs. Felix P. Clay, Montgomery, Ala., February 6, 1934.

See Key to Classification and Strength of Growth on page 31

Tyler, Texas

Standard or Well-Known Everblooming Roses

All Roses listed below are 45 cts. each, \$4.50 per doz.

There are thousands of standard or well-known Roses. However, we are now offering you only the bush and climbing varieties which we consider are worthy and adaptable to most soils and conditions.

PRES. HERBERT HOOVER

(L. B. Coddington, 1930)

HT. Cross of Sensation X Souv. de Claudius Pernet. Large, cerise-pink, flame, scarlet, and yellow bloom; thick, broad petals; fragrant. This variety has proved itself through several years' test as one of the best of the newer garden Roses for the South, for it grows with exceptional vigor and produces an unbroken succession of handsome flowers.

President Herbert Hoover

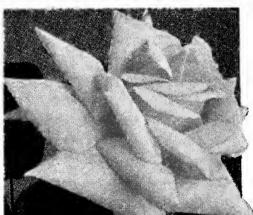

CHAS. K. DOUGLAS (H. Dickson, 1919)

> HT. Fine, longpointed buds, opening to large, loosely formed flowers of striking crimsonscarlet; slightly fragrant. The strong, branching plants are of ideal bedding habit. Abundant, healthy foliage.

GRUSS AN TEPLITZ (Geschwind, 1897)

China or Bengal in character. Clusters of medium-sized, bright crimson flowers, with velvety shadings; intense fragrance. Ideal for massing or edging. Blooms freely. Vigorous, hardy.

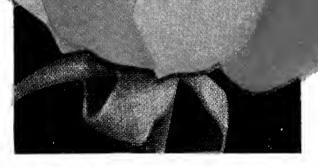

AMERICAN BEAUTY (Ledechaux, 1886)

HP. Large, globular buds and deep vinous crimson flowers, intensely fragrant, borne freely on strong stems over a long season. Very popular; always wins great admiration for its delicious perfume.

FRANK W. DUNLOP

(J. H. Dunlop, 1919) HT. Very large buds and flowers of deep, brilliant rosepink, extremely double and highly perfumed. Tall, with sparse foliage; blooms freely.

COLUMBIA (E. G. Hill Co., 1916) HT. Lively, bright pink, sweetly scented flowers of exquisite shape and strong, stiff petals, deepening in color as they expand. Free-flowering; good growth. Healthy foliage.

·++

ANTOINE RIVOIRE (Pernet-Ducher, 1896)

HT. Pale silvery pink, often shaded lilac, with a touch of yellow at base; opens flat; double to center; medium size; fragrant. Erect, moderate growth. Foliage small, dark. Free-blooming spring and fall.

LADY ASHTOWN (A. Dickson & Sons, 1906)

HT. Satiny buds and double, high-centered blooms of deep shining pink, with yellow glow at base of petals; quite fragrant. Strong; free-blooming. Hardy; healthy. 50 petals.

=13++-

Standard or Well-Known Everblooming Roses, continued

All Roses listed below are 45 cts. each, \$4.50 per doz.

JONKHEER J. L. MOCK (M. Leenders & Co., 1910)

HT. Carmine buds of gigantic size, opening slowly to enormous deep carmine-pink blooms with inner surface silvery rose. Stems are strong; bush is vigorous and unusually healthy.

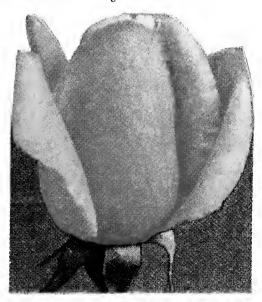

FRANCIS SCOTT KEY (J. Cook, 1913)

HT. Very large, light crimson buds and massive, very double (95 petals) blooms of noblest form; slightly fragrant. Erect. Flowers in great abundance. Good foliage. Quite hardy. Does extra well in the South.

LOS ANGELES (Howard & Smith, 1916)

HT. Very lovely buds and exquisite flowers of salmon-pink, with yellow shading; very sweetly perfumed. Thrives best in the West. For dry climates

KILLARNEY, DOUBLE WHITE

(Waban Rose Conservatories, 1909) HT. Pure white sport of original Killarney, and identical in shape of bud, petalage, and blooming qualities. Dwarf, upright grower, but very sturdy.

TALISMAN

(Montgomery Co., 1929) HT. Brilliant red and golden buds that open to beautifully shaped blooms of scarlet-orange and golden yellow. Vigorous; tall; blooms constantly. Thrives almost everywhere. The 1933 American Rose Annual places Talisman in the No. 1 list of Roses—that is, varieties that have received the most widespread praise with the least criticism, from those who have thoroughly tested this wonderful Rose.

LADY ALICE STANLEY (S. McGredy & Son, 1909)

HT. Massive buds and fully double blooms of pale flesh-pink; outside of petals coral-rose; very sweet-scented. A strong-growing, free-blooming plant, unusually free from disease.

ETOILE DE FRANCE (Pernet-Ducher, 1904)

HT. One of the really fine old-fashioned, clear crimson Hybrid Teas, with large, double, starshaped flowers borne singly on long stems. A good, bushy, bedding variety.

MME. BUTTERFLY (E. G. Hill Co., 1918)

HT. Fine, light pink buds and exquisitely shaped flowers, tinted with gold near base of petals; richly perfumed.

LADY HILLINGDON (Lowe & Shawyer, 1910) T. Slender, pointed buds and elegantly cupped flowers of deep saffron-yellow, paling lighter toward edges of petals; fragrant. Erect. Perfect foliage. Requires some shade in hot weather. Free-flowering.

·++8=

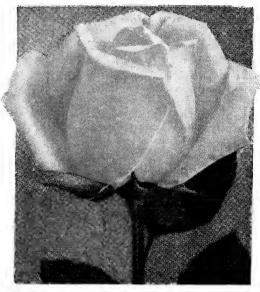

KAISERIN AUGUSTE VIKTORIA

(*P. Lambert, 1891*) HT. Well-formed, creamy buds which develop slowly to snowy white blooms of perfect form, with lemon tint at center; fragrant. Moderately vigorous. Hardy. LUXEMBOURG Marie Adelaide, Grande Duchesse de Luxembourg (Soupert & Notting, 1912)

HT. Yellow, shading to copper at center. Stiff, upright stems, producing large flowers especially valuable for cutting.

- 13++-

Standard or Well-Known Everblooming Roses, continued All Roses listed below are 45 cts. each, \$4.50 per doz.

MARY, COUNTESS OF **ILCHESTER**

(A. Dickson & Sons, 1909)

HT. Large, double, full, cupped blooms of deep rosepink; fragrant. Plant bushy; Very hardy. blooms freely. 52 petals. One of the best Roses for the South.

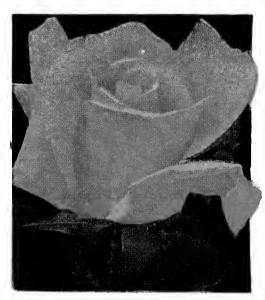

HADLEY (Montgomery Co., Inc., 1914)

HT. A rich crimson-red flower with velvety texture, lovely form, and perfume unsurpassed in cutflower value. Moderate in bloom and growth. The flowers show their best color in the fall.

SOUVENIR DE GEORGES PERNET (Pernet-Ducher, 1921)

HT. Gigantic flowers of glowing orange-pink, tinged with yellow. Buds almost scarlet. A dwarf, stocky plant which holds its huge blooms erect, making a fine bedding or massing variety.

SOUVENIR DE CLAUDIUS PERNET (Pernet-Ducher, 1920)

HT. Fadeless yellow, paling somewhat toward the edges; most beautiful when half open. Parent of most two-toned Roses. Poor grower except in the West.

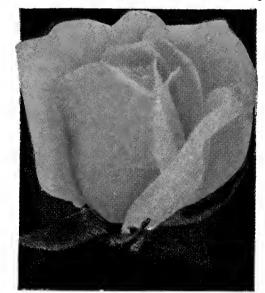

MME. CAROLINE TESTOUT (Pernet-Ducher, 1890)

SENSATION (J. H. Hill Co., 1922)

HT. Enormous, double, scarletcrimson blooms of fine, deep form; sweetly scented. Plant strong and very active. 45 large petals.

SUNBURST

(Pernet-Ducher, 1912)

HT. Fine, well-shaped yellow flowers, suffused with orange at center. A well-known, fragrant garden Rose. Has proved its value in all southern gardens. Holds foliage better than most yellows.

WILLOWMERE

(Pernet-Ducher, 1913)

HT. Large, globular flowers of satiny rose, shaded lighter toward outer edges of enormous petals; fragrant. Plant extra strong, healthy, very freeblooming.

See Our Special Standard Offer No. 3 on page 18

.++*

Willowmere

HT. Superb buds and blooms of richest pink, shining with yellow glow from heart of the flower. Strong grower; persistent bloomer. Its beauty is worth care. 54 petals.

> See Our Special Color Offer No. 4 on page 23

> > :K++•

Standard or Well-Known Everblooming Roses, continued

All Roses listed below are 45 cts. each, \$4.50 per doz.

RADIANCE (*J. Cook, 1908*)

HT. Brilliant rose-pink buds, opening to well-formed, shining, globular flowers with lighter tints on reverse of petals; very fragrant. Plant of splendid growth; wonder bloomer.

·+**+**%|=

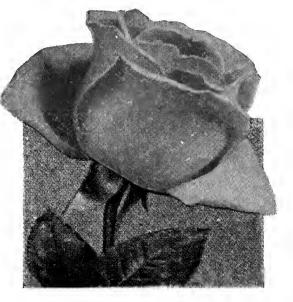

·+**+**위

•+ +욹님=

·++

OPHELIA (W. Paul & Son, 1912)

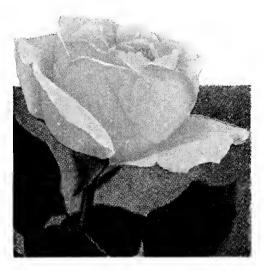

HT. A creamy white and pale pink bloom with a glint of golden yellow in folds of petals; very fragrant. Plant strong; spare habit; blooms liberally. One of the first florist Roses to have a perfectly formed bud.

RED RADIANCE

(Gude Bros., 1916)

HT. Big, globular blooms of deep rose-red on strong canes. The plant blooms freely until frost and in every respect is fully equal to Radiance. Foliage excellent.

MRS. CHARLES BELL (Mrs. Charles Bell, 1913) HT. Lovely shell-pink buds and blooms of fine globular form, with shadings of soft salmon; sweetly perfumed. Plant is strong, bushy. Good, healthy foliage.

SILVER MOON

(Dr. W. Van Fleet, 1924)

HW. Long, creamy buds; immense, nearly single, saucershaped, creamy white flowers with golden anthers. 45 cts. each, \$4.50 per doz.

K++

HUGONIS (Shrub Rose)

A handsome big shrub with long, arching canes growing 6 to 7 feet high and as much through. In early spring the plant is covered with myriads of fairly large, bright yellow, single flowers of great charm. Throughout the rest of the season, its small acacia-like foliage and bright crimson fruits make it an interesting and attractive specimen bush. 50 cts. each, \$5.00 per doz.

"First, I want to congratulate you on your recent shipment of Roses to the city of Gulfport, Miss. I have charge of the city's shrubbery and made up the order for over 500 Roses and set out every one of them with my own hands. I have had over 50 years' experience with Roses, and I never saw better stock, and up to the correct grade, too." —George B. McVay, Sr., Gulfport, Miss., January 7, 1934.

Everblooming Climbing Roses

These plants bloom throughout blooming season. They require winter protection in the North

COUNTESS MARY

(Dixie Rose Nursery, 1933)

Cl.HT. Climbing sport of the popular rose, Mary, Countess of Ilchester. Illustrated on back cover. Described on page 3. 75 cts. each, \$7.50 per doz.

KITTY KININMONTH (A. Clark, 1922)

HG. Superb, vigorous climber with huge, glowing pink flowers of vivid color. One of the finest climbing Roses. 60 cts. each, \$6.00 per doz.

CLIMBING METEOR

(Dingee & Conard, 1901)

CI.HT. One of the best old favorite dark red Roses. Blooms all season when established. 45 cts. each, \$4.50 per doz.

MERMAID

(W. Paul, 1918)

H.Brac. Huge, single, pale yellow flowers all season. 60 cts. each, \$6.00 per doz.

MARECHAL NIEL (Pradel, 1864)

BLAZE

Everblooming seedling of Paul's Scarlet Climber and Gruss an Teplitz. Described and illustrated on page 9. \$1.50 each, \$15.00 per doz.

CLIMBING MRS. THOM

A new sport of Mrs. E. P. Thom. Golden yellow. Ori-ginated by us. Illustrated on the front cover. Described on page 3. 75 cts. each, \$7.50 per doz.

CLIMBING PINK PEARL

A new sport of Pink Pearl we originated and tested. It is described on page 3. 75 cts. each, \$7.50 per doz.

CLIMBING PRESIDENT HOOVER

Another climber we originated. Illustrated on front cover and described on page 3. A beautiful climber. 75c. each, \$7.50 per doz.

CLIMBING RED RADIANCE

Cl HT. A strong climber, in bud and bloom like bush Red Radiance described on page 23. 60 cts. each, \$6.00 per doz.

CLIMBING TALISMAN

We originated this climber and tested it 3 years. It's one of the most vigorous bloomers. Illustrated on back cover. Described on page 3. 65 cts. each, \$6.50 per doz.

CLIMBING POLYANTHAS

Described and priced on pages 5 and 27.

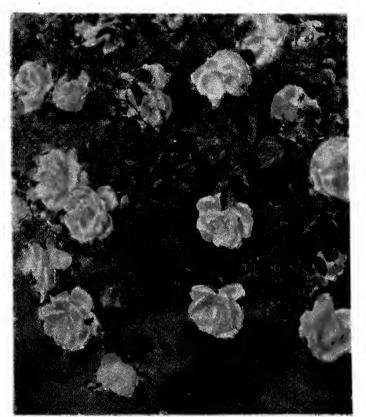

CLIMBING **CECILE BRUNNER**

This well-known Sweetheart Rose is described on page 27. You should have at least two in your garden. 60 cts. each, \$6.00 per doz.

CLIMBING RADIANCE

(W. D. Griffing, 1926)

CI.HT. Climbing form of the wellknown pink Radiance described and illustrated on page 23. 60 cts. each, \$6.00 per doz.

CLIMBING ROSE MARIE (Pacific Rose Co., 1927)

Cl.HT. Sport of Rose Marie. Fragrant, rose-pink flowers of large size, borne freely on plants of notable vigor and health. Our choice of a pink climber. 60 cts. each, \$6.00 per doz.

SCORCHER

(A. Clark, 1922)

CLHT. An astonishing new climber from Australia, with huge, semi-double flowers whose ruffled petals are blazing rose-red, entirely different in effect from any other climber of its class. One of the most spectacular varieties. Several blooming periods. 60 cts. each, \$6.00 per doz.

CLIMBING SUNBURST

(Stuart Low & Co., 1915)

Most glorious yellow Nois. climber for southern gardens. Deliciously fragrant, golden yellow flowers borne on drooping stems. Vigorous, climbing plant. Tender to frost. 60 cts. each, \$6.00 per doz.

CLIMBING RAPTURE

(Dixie Rose Nursery, 1933)

HT. Climbing sport of Rapture. Described and illustrated on page 3. 75 cts. each, \$7.50 per doz.

·++

PRINSES VAN ORANJE

New Patented Climbing Polyantha. Illustrated and described on page 5. No garden complete without one or two. \$2.00 each, \$20.00 per doz.

CI.HT. Pure white, lemon center. Vigorous climbing sport of K. A. Viktoria described on page 21. 45 cts. each, \$4.50 per doz.

Cl.HT. A vigorous climbing form of the well-known Sunburst. Beautifully shaped, golden orange flowers borne profusely without interruption all season. 60 cts. each, \$6.00 per doz.

RED EXPLORER

A new Climbing Polyantha. Described and illustrated on page 27. The best bright red Climbing Polyantha. 60 cts. each, \$6.00 per doz.

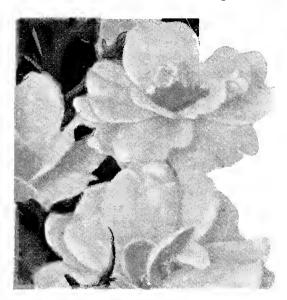

=6++•

Everblooming Polyantha Bush Roses

Bush Polyanthas are low-growing, but not weak. Polyanthas bloom in clusters and are ideal for mass color, borders, and low, colorful hedges

CECILE BRUNNER Sweetheart Rose

(*Mme. Ducher, 1880*) Small, exquisitely formed buds and flowers of light pink with yellow base, borne in graceful clusters. 60 cts. each, \$6.00 per doz

ELLEN POULSEN (Poulsen, 1912)

Large, fairly full flowers of bright rose-pink, darker toward edges, borne profusely in large clusters; fragrant. Plant 15 to 18 inches high. 45 cts. each, \$4.50 per doz.

GOLDEN SALMON (W. Cutbush & Son, 1926) Bright orange-salmon flowers in huge clusters. Growth vigorous and bushy. First really orange Polyantha. Splendid display in masses. 45 cts. each, \$4.50 per doz.

EBLOUISSANT (E. Turbat & Co., 1908)

Velvety scarlet flowers in large clusters. Each bloom resembles a miniature cactus dahlia. Unfading and always attractive color. 60 cts. each, \$6.00 per doz.

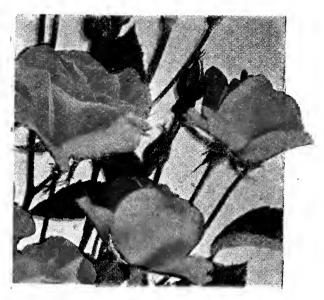

(Poulsen, 1924)

Big, bushy plant bearing huge sprays of single crimson-scarlet flowers nearly 2 inches across. Fine for low hedges or massing. Companion for Else Poulsen. 60 cts. cach, \$6.00 per doz.

ERNA TESCHENDORFF (Victor Teschendorff, 1911)

Fairly small, bright red, semidouble flowers in large clusters on plants 10 to 15 inches high. Continuous blooming. Hardy. 45 cts. each, \$4.50 per doz.

ELSE POULSEN (Poulsen, 1924)

Tall variety with huge, loose sprays of 5-petaled, brilliant salmon-pink flowers borne unceasingly all season. 60 cts. each, \$6.00 per doz.

GLORIA MUNDI (G. de Ruiter, 1929)

Huge clusters of small, orangescarlet flowers of a deeper tone than Golden Salmon. A very startling and unexpected color in the Rose-garden. 50 cts. each, \$5.00 per doz.

KATHARINA ZEIMET

(P. Lambert, 1901)

Small, very double, pure white flowers in large clusters; fragrant. Vigorous, faithfully blooming plants. One of the best white Ramblers. 45 cts. each, \$4.50 per doz.

·++{}=

GEORGE ELGER

(E. Turbat, 1912)

Dainty golden buds and pale cream flowers. 45 cts. each, \$4.50 per doz.

PRINSES VAN ORANJE

Climbing Polyantha

Described and priced on page 5.

LAFAYETTE

(Nonin, 1924)

Compact plant bearing huge sprays of semi-double, brilliant light crimson flowers about 2 inches wide. Very showy bedding variety which is highly esteemed for hedging or massing. 60 cts. cach, \$6.00 per doz.

╧╬┿┿╸

Tyler, Texas

IDEAL (J. Spek, 1921)

Dense, compact bunches of small, dark scarlet blooms, shaded with black, borne in tremendous profusion. Plant vigorous, long-branching, continually in bloom. Makes a splendid mass of velvety color all season. 45 cts. each, \$4.50 per doz.

CL. CECILE BRUNNER (F. P. Hosp, 1894)

Cl.Poly. A charming, everblooming climber, with delicate salmon-pink and paler colored flowers in clusters. A very strong grower. 60 cts. each, \$6.00 per doz.

Everblooming Polyanthas, continued

RED EXPLORER (A. Penny, 1928)

HM. A vigorous, everblooming sport of the Polyantha, Miss Edith Cavell, with the same brilliant crimson flowers borne in huge clusters. It is one of the best of the so-called hardy everblooming climbers. 60 cts. each, \$6.00 per doz.

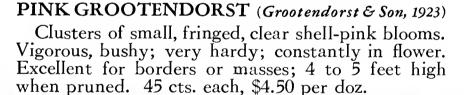

Hybrid Rugosas

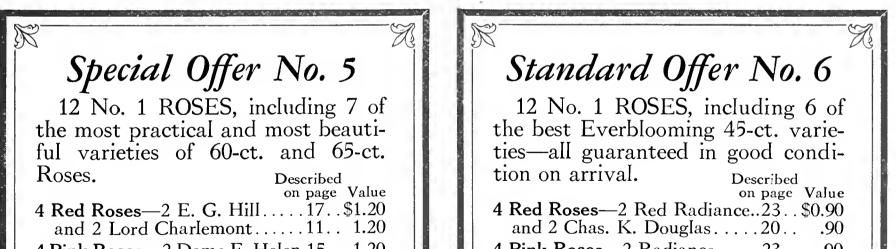

These plants bloom in small

clusters like Polyanthas, but they grow much higher, making beautiful mass-color hedges.

F. J. GROOTENDORST (J. B. de Goey, 1918)

Small, bright red, fringed flowers, in large clusters throughout season. Vigorous, 6 feet or more. Large foliage of superb quality. A fine everblooming hedge when kept cut to 4 feet. 45 cts. each, \$4.50 per doz.

MISS EDITH CAVELL (Meiderwyk, 1917)

Small, semi-double, brilliant scarlet-red flowers, produced in big, cone-shaped clusters. Sturdy, well-branched plants. One of the best. 45 cts. each, \$4.50 per doz.

GRUSS AN AACHEN (P. Geduldig, 1909)

Large blooms of Hybrid Tea type borne on dwarf, bushy plants. Color varies from orangered and salmon-pink to cream and yellow. 50 cts. each, \$5.00 per doz.

Catalog No. 27

Planting, Pruning, and Care of Dixie Roses

Location and Soil. Select a place for Roses where water does not stand after rains, and where the sun shines at least part of the day. Be careful not to plant them too close to trees, hedges, or other large plants, whose competition for food and moisture may be too keen for the best growth of the Roses. The best soil is rich clay loam, but Roses do well in almost any soil.

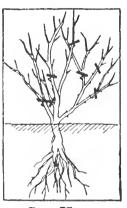

Preparation and Fertilizers. Dig the Rose bed 18 inches deep, replacing at least $\frac{1}{3}$ of the soil with well-rotted cow-manure. This may be supplemented with commercial fertilizers in early spring and at such intervals during growing season as indicated by lack of vigor in plants. If cow-manure cannot be obtained, use any other natural manure, but make sure that it is well rotted, and take particular pains to see that it is mixed evenly and finely through the soil. Do not leave it in layers or chunks in the bed. Use water liberally. Don't sprinkle, but wet the ground thoroughly by allowing water to run slowly as long as necessary to soak down to the roots.

Cut No. 4

·+**+**}

Planting and Pruning. Plant Roses as quickly as possible after they arrive. If it is impossible to plant them at once, bury the plants completely in well-drained soil to prevent drying out. Cut off broken or bruised roots and branches and prune away all but 3 or 4 of the best stems, shortening them to about 6 inches. Prune branches about $\frac{1}{4}$ inch to $\frac{1}{3}$ inch above eye, as shown in cuts No. 3 and No. 4, at left. Make holes in prepared bed wider than the roots spread. The point at which the plant was budded should be just under ground when leveled off. When hole is half filled, tamp soil firmly about roots, then fill it with water. When this has soaked in, complete filling hole with loose soil to prevent drying out. Plant 18 to 30 inches apart according to class of Roses. Plant climbers 4 to 6 feet apart.

Diseases and Pests. Dust Roses every week

with a combination of 9 parts Superfine Sulphur

and 1 part Arsenate of Lead. Do this whether or

not any disease is apparent. It will prevent mildew

and black-spot, either of which are hard to eradi-

cate after they have started. Spraying with a solution of "Black Leaf 40" will destroy green

retary is Harrisburg, Pennsylvania. Every lover of Roses should belong to this organization.

Winter Protection. Where there is a possibility of the temperature dropping near to zero, it will be best to hill the dirt up about the bushes some three or four inches high during the winter months. When the plants begin to grow in the spring, remove this dirt down to the natural ground-level. It is always good practice to

mulch the beds with dairy fertilizer; this gives additional winter protection. If dairy fertilizer is used, it should be applied after the Roses are hilled up or the dirt is banked around them.

If the Roses are planted in late spring, draw the ground up around the plants for two weeks or more, or until they can take root, to protect them from the drying effects of the sun and wind.

You Are Invited to Attend

The Annual East Texas Rose Festival on October 11 and 12 Each Year

at Tyler, Texas—the geographic and business center of America's greatest field-budded Rose area, producing 6,000,000 field Roses annually

The photographs above were taken in October, 1933. In upper right group is Dr. J. Horace McFarland, Editor of American Rose Annual, and President Emeritus of the American Rose Society. Visitors at this Festival came from 75 cities in 15 different states.

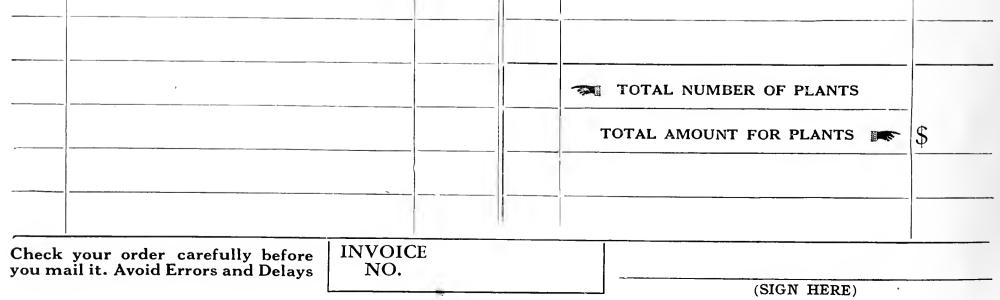

Home of Mr. and Mrs. J. C. De Shong, Paris, Texas, who have many Dixie Roses in their garden. Some of our customers have several thousand Dixie Roses in their home-grounds.

FINANCIAL RESPONSIBILITY of Dixie Rose Nursery is \$250,000.00. The owners of Dixie Rose Nursery are A. F. Watkins, Manager; W. V. Henson, Vice-President and Manager of Texas Pecan Nursery, an experienced nurseryman; and R. W. Fair, President of Texas Pecan Nursery. REFERENCES: Dun & Bradstreet, Tyler Chamber of Commerce, any Tyler bank or banker. Our methods and our guarantee are dependable.

DIXIE ROSE NURSERY South's Leading Rose Nursery CATALOG No. 27

COUNTESS MARY (CLIMBER See page 3

CLIMBING TALISMAN See page 3

The New Climbers illustrated on front and back covers were originated by us and tested in our Nurseries over two years **DIXIE ROSE NURSERY ~ Tyler, Texas**

We recommend them as five of the most beautiful and most satisfactory Everblooming Climbers we have known in our 27 years of Rose-growing
